^{1/} In the fiscal years 1935 and 1936, \$91 millions and \$554 millions, respectively, were transferred from increment on gold to the working balance for retirement of national bank notes. In this statement, however, charges for retirement of national bank notes are reflected directly against increment on gold in the years during which the retirements were actually made. Inactive gold in the amount of \$1,087 millions for the fiscal year 1937 is considered as a part of the working balance.

Notes: Figures represent par values with the following exceptions: (1) the holdings of commercial and mutual savings banks are book values, except that in the case of June and December 1941 the figures for securities issued or guaranteed by the United States are par values; (2) the holdings of individuals are residuals, and so deviate from par values in those cases where the figures for banks are book values.

r Revised.

1/ Figures are rounded to hundreds of millions of dollars and will not necessarily agree with other published figures.

2/ Securities the income from which is subject to both the normal rates and the surtax rates of the Federal income tax.

3/ Securities the income from which is exempt from both the normal rates and the surtax rates of the Federal income tax.

4/ Securities the income from which is exempt only from the normal rates of the Federal income tax. In the case of partially tax-exempt Treasury bonds and United States savings bonds, interest derived from \$5,000 aggregate principal amount owned by any one holder is exempt from the surtax rates as well as the normal rates of the Federal income tax.

5/ Includes bonds of joint stock land banks, the only Federal instrumentalities which are not Federal agencies but which have tax-exempt securities outstanding.

6/ Comprises securities held by (1) U. S. Government agencies and trust funds (including Exchange Stabilization Fund); (2) Federal Reserve Banks; and (3) sinking, trust, and investment funds of state and local governments and of territories and insular possessions.

YIELDS OF TREASURY BONDS AND NOTES FEB. 16, 1942

Based on Mean of Closing Bid and Asked Quotations

Note: For callable bonds, yields are computed to, and issues plotted as of, the earliest call date if the bond is selling above par, and as of the final maturity date if the bond is selling below par. The smooth curves are fitted by eye.

Dollar amounts shown in descriptions of issues are in millions.

Issues for which an exchange offer has been made and not expired are excluded.

Curves reflect the yields of taxable and partially tax-exempt bonds respectively, and of wholly tax-exempt notes.

Basis of Computation: (1) Treasury bond yields are computed on the basis of the mean of bid and ask quotations in the over-the-counter market, beginning September 2, 1941; previously, closing prices on the New York Stock Exchange were used on days when sales took place on the Exchange in a particular issue and the mean of closing bid and ask quotations on the New York Stock Exchange on days when no sales took place. (2) Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

Back Figures: See "Treasury Bulletin" for July 1941, pages 21-26, and subsequent issues.

^{1/} Comprises criminal cases of the Alcohol Tax Unit of the Bureau of Internal Revenue, the Bureau of Customs, the Bureau of Narcotics, the Secret Service Division, and the income tax and miscellaneous tax cases referred by the Penal Division of the Bureau of Internal Revenue to the Department of Justice with recommendation for criminal prosecution.

^{2/} Comprises cases transferred to state, local, or other authorities for prosecution and cases closed because of duplicate prosecutions.

^{3/} Cases "otherwise disposed of" consist of Customs and Narcotics cases in which no arrests were made and Secret Service cases which were disposed of by lunacy hearings.

^{4/} Insufficient cases to warrant showing comparative percentages.

^{5/} Percentages do not add to 100 because a single conviction may involve more than one type of sentence.

^{6/} Alcohol Tax Unit figures are based on cases in which a suspended or probationary sentence only was imposed.
